

#BC5-5 5 Micron Dust Collector Bag

- For Port Size of 4"
- Fits Penn State Industries' Dust Collector Models: #DC5, DC5-5
- Includes: One bag with 4" inlet
- Secures with 4" hose clamp
#DBC4 *not included*.

Maintenance: Remove the bag from the dust collection unit. Then empty any dust and debris contained in the bag. Now shake or whisk the bag with whisk or broom. If this does not clean the bag sufficiently enough, then vacuum with a shop or house vacuum cleaner.

Warning: Do not wash collector bags for any reason! Doing so will void your warranty.
