Because of the striking grain and luster, the wood is a favorite with craftsmen who use it for decorative pieces.
**TULIPWOOD** *(Dalbergia frutescens)*

This unusual and attractive wood is found in Central and Latin America primarily in Brazil, Colombia, Guyana, and Venezuela. The wood is also known as Brazilian tulipwood, *Pau rosa*, Pinkwood, *Pau de fuso*, and *Jacaranda rosa*.

Tulipwood is hard and dense with an elegant pink-yellow heartwood with a pronounced stripe of pink to deep red.
