

Magnum Duck Call Kit

Kit Features:

- Rigid ABS plastic construction.
- Designed by game call professionals.
- Factory tuned sound board.
- Used for attracting water fowl.
- Lanyard optional
- Available in double reed, black, clear & smoke

Required Accessories:

- 1-1/2" x 1-1/2" by 4" Blank
- 7mm Pen Mandrel
- Wooden Jam Bushing Set #PKGCALL2BU
- 60° Heavy Duty Live Center
- 5/8" Spade Drill Bit #PKSB58

Preparing the Wood:

Cut a blank to a 1- 1/2" x 1-1/2" square to the required length. Mark the center of the square ends. Drill a 5/8" hole centered through the length of the blank.

Turning the Blank

Mount spacer bushings on the mandrel. Follow with a jam bushing, wide end in first. Insert the blank. Follow with another jam bushing narrow end in first. Insert spacer bushings and lock the set up in place tight. See Diagram 'B'. Turn the wood down to the profile of your choice. Cut a groove to affix the lanyard cord. Sand and finish the barrel with penetrating oil.

Assembly

Insert the reed holder with a twisting motion into the opening in the body, past the 'O'-ring. Stop at the shoulder. Affix the lanyard into the groove, secure into place.

Tips & Techniques

- So easy to use that you will sound like a flock of mallards ranging from flying high, to a feeding call.
- **Single Reed:** Black: Has more range and is more versatile than the double reed calls, but it is also a little more difficult to master.
- **Double Reed:** Black, clear, smoke. Takes more air to create a sound and does not have as much range as the single reed models. However, they have a sweet spot that sounds more realistic to passing ducks.

KIT COMPONENTS

- A. Reed wedge
- B. Sounding board (reed) single or double
- C. Tone board (reed holder)
- D. O-Ring
