DIAGRAM A / PARTS LAYOUT

DIAGRAM 'B' – TURNING THE BLANK

## Turning the Blank

Mount spacer bushings on the mandrel. Follow with a jam bushing, wide end in first. Insert the blank. Follow with another jam bushing narrow end in first. Insert spacer bushings and lock the set up in place tight. See Diagram 'B'. Turn the wood down to the profile of your choice. Cut a groove to affix the lanyard cord. Sand and finish the barrel with penetrating oil.

## Assembly

Insert the call assembly with a twisting motion into the 5/8" opening in the body. Affix the lanyard into the groove, secure into place.

This new Doe Bleat is a must have for all hunters, Whitetail, Blacktail, and Mule Deer react to this call like a magnet. The innovative tuning hole that can produce the "wavering estrus bleats" that are perfect for the early season hunters.
